AEI-NOOSR* Professional Development Workshops
Advanced Workshop – Assessing overseas qualification

We are offering the following advanced workshops in 2012. Please note that the workshop assumes that participants are experienced with using Country Education Profiles (CEP).

The workshop is designed to support the decisions you make about recognising overseas qualifications. It is based on practical exercises, interactive case studies and group work for higher education qualifications from a variety of countries. Activities are mainly based on qualifications not covered by CEP Online assessment guidelines.

Is this workshop for me?
This workshop is designed for participants who:
- Have several years experience in assessing overseas qualifications
- Have well-developed organisational policies and processes for assessing overseas qualifications
- Are looking for further guidance on research and analysis for complex cases

At the end of the workshop participants will:
- Develop skills in assessing complex overseas qualifications using a range of resources
- Improve understanding of AEI-NOOSR’s assessment methodology, CEPs and important considerations when assessing overseas qualifications.
- Develop a step-by-step approach to making complex assessment decisions.
- Increase ability to understand complex qualification documents

Where and when?
Workshops are from 9am-4pm. Places are strictly limited so early registration is recommended.

*AEI-NOOSR is part of the Department of Industry, Innovation, Science, Research and Tertiary Education. It provides information and advice on the comparability of overseas qualifications in Australia. AEI-NOOSR published CEP Online – a recognition tool used to compare the educational level of overseas qualifications to the Australian Qualifications Framework (AQF).
