AEI-NOOSR* Professional Development Workshops
Beginner Workshops - How to use Country Education Profiles

We are offering the following beginner workshops in 2011. The workshops are for absolute beginners and are targeted to those who have never used or just started using of the Country Education Profiles (CEP).

These workshops are designed to introduce new or beginner users to effectively using the CEP Online website as a qualifications recognition tool. Participants will learn how to navigate the system by working through practical exercises.

At the end of the workshop participants will:
- know what information is in CEP Online and how to find it quickly
- understand how to assess overseas qualifications using CEP Online
- be able to apply strategies to resolve basic qualifications recognition issues.

Where and when?
