About the institute
Southbank Institute of Technology's focus is on delivering progressive, high quality education in a wide variety of disciplines. They are continually assessing and developing the programs delivered for services experiencing high demand for qualified personnel, including health services, biotechnology, engineering and multimedia.

As well as working to ensure graduates are ready for employment, Southbank Institute of Technology prides itself on delivering programs that provide a pathway to university. In addition, Southbank Institute of Technology offers options for those with a university degree who require a practical qualification.

Southbank campus
Southbank Institute of Technology is located in the centre of Brisbane's cultural hub and restaurants. It is also within walking distance to Brisbane's Central Business District and inner city areas.

Campus lifestyle
Facilities available to students include:

- Health, Beauty & Natural Therapies Centre
- bookshops.

TAFE pathways
Southbank Institute of Technology has articulation agreements with many universities across Queensland. For further information, please contact the Southbank Institute of Technology.
