Governments are redefining technical and further education in terms of market competitiveness. TAFE providers are responding by recreating the skills development landscape in diverse and inventive ways. We are leaner, and we are sharper in our focus on skills in an international context. We aim for agility in our business models, and to anticipate the changing needs of our diverse clients.

We have redefined our collective capability.

Join us at the 2013 TDA conference to examine the following issues:

• The economics of skills
• Australia in the Asian Century
• Redefining learning approaches: MOOCs, NBN
• The ‘quality proposition’ – what is it?
• Tertiary connectedness
• Indigenous workers and learners
