

Victorian Bushfires

February 2009

On behalf of Australia's 58 TAFE Institutes, our Executive, teachers, suppliers, students from all States and Territories, and the Australian Pacific Technical College, we extend our sincere sympathies to the families of victims of the Victorian bushfires. The tragic loss of life, the impact to those who lost home, those survivors warned by the fire storm, and the emergency workers are all in our thoughts. TAFE Institutes have various camps locations nearby, and from emergency services training, we recognise how extensive is the impact to those involved in the exceptional conditions of the February 7 fire storms. Martin Hudson - Staff.
